

## # Audit Report

### ## Executive Summary

Chief Justice synthesized parallel judicial opinions using deterministic rules including security override, fact supremacy, and variance re-evaluation.

- Repo: '[https://github.com/eyorata/automation\\_auditor.git](https://github.com/eyorata/automation_auditor.git)'
- Overall Score: \*\*1.00/5.00\*\*

### ## Criterion Breakdown

### ## Remediation Plan

Prioritize structural reliability in graph orchestration, schema enforcement in judge outputs, and report/code cross-reference consistency.
